Our Company

DGS (Deary’s Gymnastics Supply) opened its doors in 1993 in Danielson, Connecticut. DGS has grown to be the largest Equipment and Supplies distributor in the United States, servicing the gymnastics industry for the past 25 years.

In addition to our offices and retail warehouse, DGS also operates a full manufacturing facility which includes upholstery, woodworking and metalworking shops. Our modern manufacturing equipment allows us to produce our own spring floors, custom edge & wall pads, parkour boxes, ninja obstacles, home use balance beams and many new strength & fitness products built specifically for gymnastics. Development and testing of new products is a key benefit of having our own manufacturing team.

We have over 60 years combined experience designing and installing gymnastics facilities and pits. Whether your project is a 500 sq. ft. addition, or you are breaking ground on a brand new 50,000 sq. ft. building, our staff has the knowledge to help.

Our online retail store, gymsupply.com, has the largest selection of gymnastics grips and supplies you will find anywhere, and our friendly and knowledgeable customer service team are here to make sure you find what you need. We are the exclusive US distributor of several grip brands, and are the Official Grips Supplier of the US National Teams.

John Deary
DGS is driven to keep the sport of gymnastics free from abuse. How can you help? Our Keep Kids Safe program donates a portion of the proceeds from certain products to a campaign of our choosing that works to educate and provide assistance for abuse prevention.

Education and awareness are the keys to keeping our kids safe, and by working together we can make a difference.

Your gym or organization will make 5% of every sale referred by your custom link, paid monthly. Use that money on the things your gym needs, like mats, bars, beams, or whatever you choose!

Joining our program is easy! Sign up today at dgs.postaffiliatpro.com. If you have any questions at all please don’t hesitate to give us a call.
Custom Gym Design

A lot goes into designing a gym. Making sure you have the appropriate equipment, efficient use of space, traffic flow, proper padding, safety precautions, etc. It can be overwhelming, so let DGS help?

With over 60 years of combined experience designing gymnastics facilities, our team has the experience you need to be sure your project is done right and on time.

Most projects start with a phone call and some preliminary drawings of your space. We can work with your architect, builder or other contractors to make sure the job goes as smoothly as possible, and we also offer 3D Gym Design services to help with visuals for potential clients and investors.

Gymnastics • Parkour • Ninja
Proudly serving the gymnastics community for 25 years!

DGS Spring Floors
We build our spring floor decks right here in our Connecticut manufacturing facility using high quality Baltic Birch plywood, springs and hardware. Choose from standard double layer construction, or if you need to setup and break down your floor more frequently, we also offer a one layer system with aluminum channel connectors to speed things up.

DGS Spring Floor Kits
For those that are looking to use their own lumber, and assemble their spring floor themselves. Available in standard floor sizes, these kits include springs, hardware, hook & loop and instructions.

Carpet Bonded Foam
• Gymnastics, Cheer, Martial Arts or Fitness Floors
• 6’x42’ Stock Rolls (Custom lengths available)
• Long Lasting Crosslink Trocellan or
• High bounce performance Tri-Flex EVA

Custom Colors Available!
Available in 6” or 8” sizes, in a variety of colors. All foam cubes are Non Fire Retardant and meet Cal. 117-13 Spec.

Covered foam cubes last longer and reduce dust levels in your pit. Available in 6”, 8” and 6”x18”, in red, blue and black. Covers also sold separately.

Warning

No pit of any kind can completely eliminate the possibility of a serious neck or back injury. Every effort must be taken to avoid landing on the head or neck, especially going forward. Careful gymnastic progression must be followed to avoid dangerous landings on the neck.

Pit Design and Build

DGS will not only help you design your pit, but we have all the parts and equipment you need to outfit your pit and appropriately pad it. From Bungi-beds to foam cubes, get it ALL here.

Custom Pit Edge & Wall Pads

We manufacturer our own pit edge pads, column pads and wall pads. Every order is custom built for your facility, ensuring a perfect fit.

BungiBed Pit System

Use less foam and have safer landings by using a BungiBed Pit System. The infinite adjustability allows you to fit your pit dimensions perfectly.

www.gymsupply.com
Looking for a tumbling solution that’s more portable, easy to setup and can be used inside or out? Air Floors are the way to go! We carry options from Air Track Factory and Air Box in a variety of sizes and thicknesses to fit your needs. Air floors are also great for Ninja, Parkour and Tricking.

Air Floors

We offer the full line of Tumbl Trak products and accessories.

Trampolines and T&T

We have everything from mini-tramps to elite level competition trampolines, double minis and rod floors. We also have replacement beds, springs and safety pads for all makes and models.

800 • 932 • 3339 | info@gymsupply.com
The Chalk Trap

The Chalk Trap eliminates the fine powdery chalk that floats over the gym, keeping more of the chalk off the floor and allowing the chalk to be recycled. Cut chalk dust off at the source by creating a designated chalk station.

Removable Top

Replaceable Filters

Chalk

We are one of the largest importers of gymnastics chalk in the US, and always have a variety of options available for your gym. Purchase by the box, or save even more when you buy a whole case.

Chalk Eater

Reduces cleaning time and cleaning expenses and circulates the air in the gym to create a healthier environment.

Chalk Holders

High Holder Stand 42” tall

Chalk Bowl

“We don’t have the mess we used to and judges have commented that our gym is less chalky than others.”

Melissa, Northfield Gymnastics

Training Equipment

DGS has a variety of training equipment for gymnasts to use at home, or in the gym. Whether they are looking to strengthen basic or advanced skills, we have the equipment suitable for their goals.

Balance Beam 8’ Padded
This gymnastics balance beam is perfect for home or gym use. Gymnasts of all ages and levels can benefit from using this beam.

Padded Beam Table
A great beam for training a new flight series, that first walkover or cartwheel, or your preschoolers’ first experience on a balance beam.

Parallettes
Made of long-lasting baltic birch with solid oak handles. Great for push ups and other calisthenic exercises.

Handstand Trainer
Regular use of the handstand trainer will build a strong handstand position for your athletes.

The Stickler
is an ankle-shaped foam block which helps the athlete keep their legs together.

Training Bar
Conversion Kit
Turn your old AAI bar into a floor training bar instantly!

Kip Wheel
Help your athletes learn kips and front hip circles without a spotter.

Kip Swing
Adjustable to fit gymnasts of all sizes. This device will help your athletes do their first kip

Tapeze Bar
Teach tap swings and your athlete's first fly away on uneven bars or horizontal bar.

Pirouette Trainer
This perfect combination of floor bar and mat is built specifically for teaching handstand pirouette and blind turns, ¼ turn training.

Padded Beam Table
A great beam for training a new flight series, that first walkover or cartwheel, or your preschoolers’ first experience on a balance beam.

Wobble Bar
Perfect for preschool classes or high level gymnasts. 6” off the floor and has 1/2” of firm foam padding on the top surface. Perfect for press handstands, planches and turns as well.

Proudly serving the gymnastics community for 25 years!
Mats

Competition Landing Mats, Skill Cushions, Resi-Pits Sting Mats and More! We have all the mats you need for your gym, or for the gymnast to use at home! Custom sizes and colors available.

Iron Cross Trainer
Reduces the weight the gymnast holds while training the Iron Cross, Maltese, and Planche.

Ring Trainer
The Ring Trainer is designed to reduce the force endured by the athlete by 50% when training on rings.

Ultra Dome
16” tall and 22” diameters

Colt Pommel Trainer
Sturdy molded polyethylene base with padded leather-like top.

Level 4 Parallel Bar Mat System

New DGS Exclusive! A much needed product for Men’s Programs with limited space. Turn your tall Elite P-bars into a low set sized for the little guys and a great training tool for the men.

www.gymsupply.com

Colorless so it won’t stain skin or clothes. Tuf-Skin helps secure tape, underwrap, and elastic wraps.

Coaches First Aid Kit
Contents are organized for fast access and labeled with clear directions for finding the right item for the injury.
Join the exciting world of ninja! Stealth Ninja Gear brings a whole new element to your gym, and will draw interest from both new and existing customers as they test their skills on your very own Stealth Ninja Obstacles.

Our obstacles can be used in many different configurations and have been designed in such a way that they are difficult enough to provide a challenge, but not so difficult that they become discouraging. All features can be adjusted to fit the age or skill level of the user.
The Real Life Ninja Equipment Line was designed and developed with Drew Drechsel and manufactured in Connecticut by DGS. The line includes ninja warrior obstacles for all ages and ability levels, and is modular so that you can build a system to fit your space.

Visit gymsupply.com to see videos of the equipment in action, and hear Drew talk about the Real Life Ninja equipment line, or call 800-932-3339 to talk with one of our gym design specialists about how you can incorporate ninja into your gym!
Ninja/ Parkour Accessories
